What Is Typical?

The world's population exceeded 7 BILLION PEOPLE on October 31, 2011. Consider what the average person looks like. Do they look like you? Me? Your neighbors? National Geographic has figured out what the typical person looks like.

Directions:

- Go to the Library's Blog – <http://blogs.wcpss.net/mhsmediacenter>
- Find the post called "What Does 7 Billion Look Like?" and watch the video "Who is Most Typical?"
- Answer the questions on your handout.
